Metalloyd is a major supplier of steel products and raw materials to distributors and end users worldwide. We provide finance and marketing services for steel producers.

Our team is comprised of highly qualified and motivated professionals with wide-ranging skills and competence in global markets. Our competitive edge is maintained by a friendly and energetic working environment, and a work force that adapts quickly as a team to changing market conditions.

We provide innovative solutions to complex trading and supply chain problems and are committed to successful and sustained growth for the benefit of our business partners, customers, suppliers, shareholders and staff.

The Metalloyd Group is an established international company with its head office in London, UK. We are registered in London and we are a member of the International Steel Trade Association

Your Partner for Steel & Raw Material Supply

Metalloyd is able to offer the following financial arrangements;

- Prepayment Finance
- Finance for Tolling / Conversion Projects
- Barter Transactions / Products Swaps
- Open Account Terms
- Sight & Extended Term Letters Of Credit
- Consignment Of Goods To A Controlled Area

Metalloyd has the resources and capability to provide trade finance solutions and to manage the successful operation of business ventures within the steel and raw material industries.

As a direct result of our financial strength and commitment we have a consistent record of achievement in the management of business ventures in Russia, Ukraine, Canada, USA, China, India, Taiwan and Eastern Europe.

As an example we have a tolling operation in the USA where concast steel slabs are delivered from CIS and South America and converted into HRC and CRC products for supply end-users in the USA and Canada.

We constantly seek joint ventures and look to develop all opportunities for expansion into new products and new markets.

MARKETS

Metalloyd companies and representative offices are situated in:

U.S.A.	India
Canada	Taiwan
Russia	Korea
Ukraine	Indonesia
Czech Republic	Germany
Serbia	Italy
China	Spain

Do not hesitate to contact our sales office to discuss your requirements.

Email. sales@metalloyd.co.uk

Our overseas companies and representative offices have long-term relationships with our customers and a thorough knowledge of the steel market place.

We can provide necessary information on market trends in specific areas of concern: supply developments, price levels and demand requirements for particular products of interest to suppliers and customers as well as information on the freight markets and other logistical information.

We are able to arrange all modes of transport to meet your needs. Whether by rail, ocean going vessel or road, we have the personnel, experience and infrastructure to handle truck deliveries from small quantities of steel coils up to cape size vessels for bulk cargo deliveries.

All aspects of the delivery of steel-making raw materials and steel products can be arranged as well as insurance, storage and inspection services.
